

# Angela Halgrimson

Award-Winning Children's Book Author

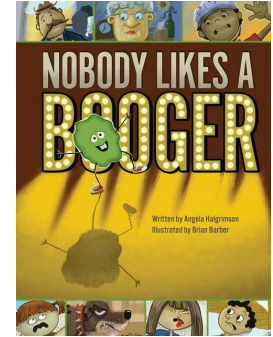

## Book Order Form

It's almost the first day of school and you know what that means: A back-to-school haircut for Yeti is a must! Yeti's new friend, Suzi, knows just the right place! This charming and silly book tackles the never-ending battle of children's first haircuts. Come along for this fun and silly Yeti adventure!

Lenny's parents are proud of their smart and polite young crow, but it's not easy being so smart and polite all the time. When Lenny meets a very rude farmer in the cornfield his manners are put to the test and readers young and old will laugh at what happens next.

This super silly book shows kids how to make a booger happy by putting it where it belongs: in a tissue! Fun prose and hilarious illustrations will crack up kids of all ages while teaching important manners. And readers will think twice about where they put their boogers.

Quantity

Angela, an acclaimed author, found her calling to write children's books after surviving a traumatic brain injury. With three published books and more in the pipeline, she expresses gratitude to the organization that aided her recovery by donating a portion of her proceeds to the Minnesota Brain Injury Alliance. Additionally, Angela contributes her time and expertise as a dedicated Board member for the MBIA, furthering her commitment to supporting others facing similar challenges.
